+ Additional Add-ons 15 min

Led Light Therapy

Improves stimulation of new collagen and skin elasticity. Reduces appearance of fine lines, wrinkles and dark spots, acne scars, redness and inflammation.

Chemical Peel

Lightens hyper-pigmentation, smooths out rough skin, lightens acne scarring and prevents future outbreaks, diminishes fine lines and wrinkles, and increases collagen.

Microdermabrasion

Renew and revitalize skin tone and skin texture. Improve appearance of over exposure to the sun, aging, and scarring.

Dermaplaning

Cleansing exfoliation of the dead skin cells while removing the fine vellus hair (peach fuzz) on the face.

Microcurrent Face and Neck Lift

Heating the skin to lift the cheeks and tighten the jawline while softening fine lines.

MICRODERMABRASION 30 min

Renew and revitalize skin tone and skin texture. Improve appearance of over exposure to the sun, aging, and scarring.

CHEMICAL PEELS 30 min

Lactic Acid Peel Mask

A mild peel suitable for all skin-types. Reduces hyper-pigmentation, evens skin tone, and softens fine lines.

Alpha Hydroxy Acid Peel

For a fresher, brighter appearance. Particularity targeting fine lines and wrinkles.

Beta Hydroxy Acid Peel

A moderate-high peel. Recommended for above average blemished, uneven, and oily-skin.

TCA 10% Depigmentation Peel

Recommended for skin-types with melasma and hyper-pigmentation.
